Maximum Flexibility

Build-in elevator for kidney bridge & chest bridge

Engineered for increasingly complex surgical scenes, HyBase needs least effort and time to position the patient in a safe, comfortable and efficient way. Insightful to the surgeon and nurse's needs, Mindray is answering demands for a total solution of operating table with:

- Better mattress for the comfort of patients
- Safe and efficient patient positioning
- Know-how for maximizing the versatility

- Multi-layer decompression pad with waterproof and seamless design
- Longitudinal slide up to 300 mm for free access to C-arm
- Max. overall load up to 230kg in normal position
- Battery power for 50-80 operations
- Mechanical brake system for optimum stability
- Return to original position with one button
- Flex & Reflex position with one button
- Radiolucent table plate for free C-arm access
- Three control panels including remote panel, backup control & foot switch

Mindray OR Total Solution — Welcome to Mindray showroom

All the advanced and reliable facilities from Mindray technology, are perfectly matched to give you total support !

HyBase 3000

Convenient positioning technique for all surgical disciplines

A successful operation starts with the excellent patient positioning, and thus requests convenient access, excellent results, time saving and efficiency. Outstanding flexibility of HyBase 3000 together with various accessories makes every possible patient positioning quickly and securely established.

We use high quality stainless steel material in operating tables and accessories. In order to get the surgeons access to C arm, all the pads or plate are radiolucent for X-ray check. To avoid hurting the sensitive part of the patients, we provide Gel material pads for patients positioning which are similar as human tissue.

Intervertebral operating position

Rectal operating position

General thyroid operating position

Ophthalmic operating position

Arm or hand operating position

General supine operating position with longitudinal slide of 300mm to head end

Neurosurgery operating position

Neurosurgical adapter can connect Mayfield frame

Note: all the patient positions in this brochure are just the example and do not represent medical points of view.

HyBase 3000

Convenient positioning technique for all surgical disciplines

Developed in close collaboration with end users, the accessories fulfill all kind of surgery positioning demands and place the patients in an optimum way which brings benefits both for surgeons and patients.

Tibia operating position

Traumatology for the neck of femurs

HyBase 3000

All the advanced and reliable strengths from Mindray technology

With the new SFC (Special Foam Core) cushions, HyBase 3000 provides excellent pressure distribution, significantly avoids the main course of decubitus, reduces the rate of postoperative health risk, and speeds up the patient recovery.

Patient would feel creditable comfortable thanks to extra 75mm thick padding of a double-layer construction inside.

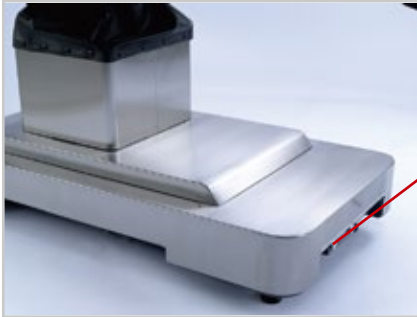

The outstanding GORE-TEX material has the following characters: breathable, waterproof, fireproof, anti-static and match the hygiene standard.

Since normal affixed or sewed cushion can't be directly washed, how to clean the blood and fluid stains which will be a hidden danger for surgeon and patient's health has become a serious problem. Using advanced ultrasonically-welded technology, our excellent waterproof cushion will never have such worries.

Foot break provides maximum safety and easy use.

Battery power can support 50-80 operations. Backup control keys in case of hand control failure. Optional stainless steel cover.

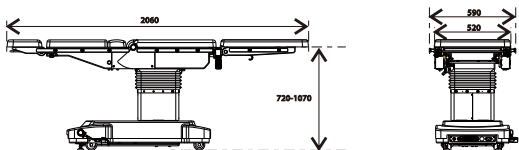

- Backup control
- Longitudinal shift* up/down
- Trendelenburg
- Reverse Trendelenburg
- Turn left/right
- Back plate up/down
- *Optional function
